Opponents use fielding to prevent the batter running around the circuit. This involves **catching**, **tracking**, **stopping** the ball and **throwing** it to other fielders.

It is important to demonstrate effective **teamwork** when fielding, thinking about our **position** and the position of others.

## Sticky Knowledge

**Bowlers** bowl from the bowling square. **Batters** bat from the batting square. The **backstop** should be behind the batter. **Fielders** should be positioned near bases and in spaces around the field.

Rounders involves **batting** a ball and **running** around a circuit of bases.

### Batting technique:

- Hold the bat high (in one hand)
- Have a strong grip on the handle
- Keep your eye on the ball
- Stand side-on to the bowler
- Swing through the ball
- Stamp forwards into your move to gain more power.
